EXAMINER'S COMMENT AND REASONS FOR ALLOWANCE

The previous Restriction Requirement is hereby withdrawn inasmuch as the claims had been previously amended and the restriction was inaccurately based upon the unamended claims.

Claims 1-4 and 8 are allowable for the reasons set forth below:

The following is an examiner's statement of reasons for allowance: in a winding apparatus as set forth in claim 1 the provision that the winding shaft is axially moved depending on the position of the exposed part of the release film is nowhere shown or taught in the prior art. With respect to the feeding apparatus of claim 4 and the method of feeding of claim 8 the provision of a detecting mechanism that detects the exposed part of the release film to operate a controller to generate power in the axial direction of the feeding shaft or the step of feeding a next stage of the film by axially moving the winding shaft on the basis of detected information of the exposed part of the release film are nowhere shown in or taught by any of the prior art references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John M. Jillions whose telephone number is (703) 308-2685. The examiner can normally be reached on M-F 9:15 - 5:45.
